

Huntington Breast Cancer Action Coalition (HBCAC) is a not-for-profit grassroots organization dedicated to the ultimate eradication of breast cancer through education and awareness. Our mission is to focus on prevention methods while actively helping those who are faced with a positive diagnosis.

What We Do

Since 1992, Huntington Breast Cancer Action Coalition has forged accessible pathways of involvement in the complex issue of breast health. Those pathways include:

> AWARENESS

HBCAC works to keep breast cancer awareness in the forefront of public concern on Long Island.

> EDUCATION

HBCAC informs the public on methods available for early detection/screening and general breast health. We have created a network for breast health consumers consisting of educational resources, trained volunteers and breast care experts. We work in partnership with local hospitals, medical offices, nutritional counselors and governmental agencies.

> ADVOCACY

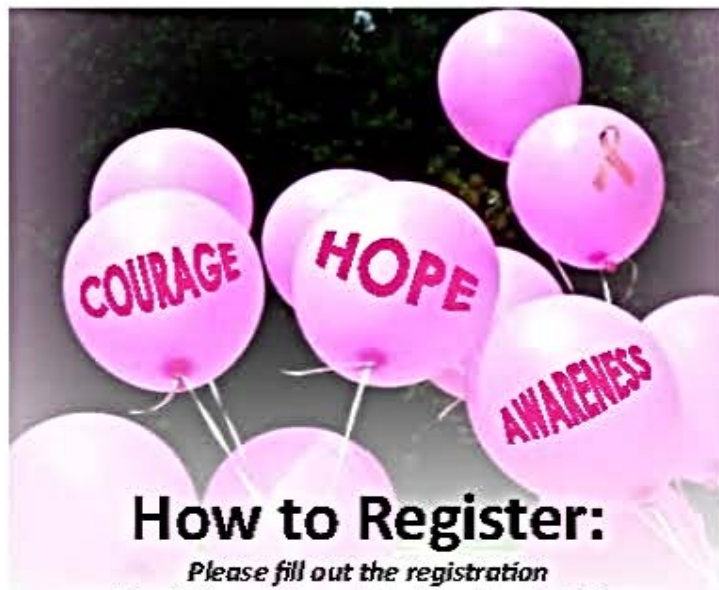

At every level of government, from Huntington Town Hall to Washington D.C., we encourage research, funding and legislation that will focus on prevention and intervention; ultimately leading to the eradication of breast cancer.

> COMMUNITY INVOLVEMENT

HBCAC mobilizes volunteers and community minded people in a broad based "coalition of concern". Our community outreach includes speakers, lectures, panelists, seminars, publications, newsletters, resource guides, calendars and other informative references.

> SUPPORT

HBCAC provides ongoing support groups, educational programs and other resources and products for women and men diagnosed with breast cancer.

| Booster | \$50 |

Meet Our Honoree... *Debbie O'Rourke*

In the Spring of 2005, Debbie O'Rourke and John Brust along with the generosity of Edge Electronics CEO, Adrienne Giannone had the privilege of starting the Edge Electronics Charity Golf Outing. Due to the tremendous success of this event, The Eventide Group was formed.

Eventide assists corporate and non-profit clients with their administrative needs and it has handled events for as few as 15 people, and as many as 2,000 guests. Each Eventide client has different needs allowing Debbie to use her experience to provide bookkeeping, all administrative tasks, organizational skills, and she has been able to produce sales conferences, golf outings, picnics, business seminars, dinner dances, and concerts just to name a few. "We smooth the way" became the slogan of Eventide and it was easy for Debbie to keep her clients calm and allow them to enjoy their event. As a duck may be paddling crazy under the water, the client only sees the water rolling off the ducks back...smooth and calm

Debbie is very involved in her community. She is a proud board member of the Holbrook Chamber of Commerce and also a board member in her home community of 504 homes. She has donated many hours to various charities but those that mean the most to her are Contractors For Kids and anything to do with JRA and Breast Cancer.

Debbie resides in Holbrook along with her husband Roger of 28 years and her daughter Brittany. Brittany's fiancé, Louis, seems to reside with them most of the time as well.
